

**TARIFF PICTURES.**  
According to Democratic authority there are in New York City 4,000 trades union shoemakers. To-day according to the same authority, 4,000 of the shoemakers, under Democratic rule, are out of employment.

**A QUESTION.**  
Hudson (N. Y.) Republican.—Grover fetched 'em to the spring, but can he make 'em drink?

**GROVER UNEQUAL TO IT.**  
Buffalo Express.—What would not the Democrats give if they had a leader like Reed to drive their wild horses?

**THAT "CHANGE."**  
Iowa State Journal.—Under the Democratic Administration Federal soup-houses will take the place of a Protective Tariff.

**ON THE FENCE.**  
Kansas City Journal.—President Cleveland has not yet intimated which he will favor in the Ohio fight, McKinley or Neal.

**CHICAGO FEET.**  
St. Louis Globe-Democrat.—No man can be loyal to the present Administration and keep his feet on the Chicago platform.

**WORTHLESS.**  
St. Louis Globe-Democrat.—In the pending readjustment of values the country will learn that Democratic promises are not worth a cent on the dollar.

**A GREAT DRAWER.**  
St. Louis Globe-Democrat.—Cleveland excels any previous President in the matter of drawing a salary for constructive presence at Washington.

**CORRECT.**  
St. Louis Globe-Democrat.—The people of the United States would be perfectly willing to submit the whole silver question to John Sherman as an arbitrator.

**AGAIN UNDER COVER.**  
Washington Post.—By the adoption of the financial plank of the Chicago platform the Ohio Democrats were able to conceal their position on that important question.

**DON'T RELISH THE TRUTH NOW.**  
Iowa State Register.—It was Grover Cleveland who said, "Tell me the truth," but Grover Cleveland Democrats now boil over with wrath when Republican papers rub the truth in.

**A BLACK CHAPTER.**  
Rochester Democrat and Chronicle.—When the history of this causeless panic, started by President Cleveland, is written, it will appear as one of the most shameful chapters of our history.

**AN OBJECT LESSON.**  
Chicago Inter Ocean.—"The poor man's little dinner pail" should be hung up in Congress upside down to remind honorable members of the condition to which Democracy has reduced labor.

**A TOUGH SUBJECT.**  
Kingston Freeman.—Thus far the only help that State Treasurer Danforth has received from his party press is silence. It takes a pretty hidebound editor to approve openly of the juggling of trust funds.

**STRIKING AT THE ROOT.**  
Buffalo Express.—The United States has been buying silver bullion with gold ever since 1873, yet it was not till the Democratic party triumphed on a platform pledged to free-trade that this dangerous policy caused a financial panic.

**ONE RESULT OF THE "CHANGE."**  
New York Times (Dem.).—The sales of their goods being greatly diminished or having practically ceased, collections being extremely slow and currency almost impossible to be had, the post of treasurer of a great manufacturing concern has of late been anything but an agreeable one.

**READY FOR THE GOOD TIMES.**  
City of Mexico Two Republics.—E. B. Horan of El Paso has completed a fast of fourteen days, during which time nothing passed his lips except water. Mr. Horan is a Christian scientist. He claims that all appetite is abnormal, owing to the stimulants people use in food and drink, and that the first step toward a betterment of human conditions is perfect content. Contrary to other fasters, he followed his regular avocation as a railroad engineer during his refusal to eat.

ARRIVALS

## SECOND DAY OF THE FAIR.

### THREE VERY EXCITING RACES YESTERDAY AFTERNOON.

Everything Moving Along Smoothly—The 2:19 Trot and Free-for-all Pace This Afternoon.

Yesterday was the second day of the fair and a gala one it was.

The weather was all that could have been desired, the track was never in finer condition and the music was excellent.

The crowd was equal to if not greater than was ever on the grounds on the second day of the fair.

In the arena in the morning was shown the harness stallions, saddle stallions, sweepstakes for harness and sweepstakes for walking horses. The stock was very fine and the following premiums were awarded:

Harness stallion, 4 years old or over, J. F. Walton, Germantown.

Saddle stallion, 1 year old or under, S. T. Sugg, Nicholas county.

Harness stallion, 2 years old or under, S. T. Sugg, Nicholas county.

Harness stallion, 1 year old or under, 2, Tilton & Bell, Robertson county.

Saddle stallion, 4 years old or over, J. F. Walton, Germantown.

Saddle stallion, 3 years old or under, 4, Parker & Clark, Maysville.

Saddle stallion, 2 years old or under, 3, Charles Scott, Adams county, O.

Saddle stallion, 1 year old or under, 2, L. T. Anderson, Minerva.

Harness horse, N. H. Rowland, Lexington.

Walking horse, W. M. & A. G. Jones, North Middletown.

There were three races in the afternoon, the 2:27 trot for \$500, the Blue Ribbon Futurity for a purse of \$5,000 and the 2:20 pace for \$500, of which the 2:27 was first. There were nine starters in this race, of which May Queen was the favorite, and she won with ease. The summary:

Galilee.....dis.  
Mardale.....5 7  
Dipault.....2 5  
Farnett.....2 5  
Diamond Joe.....2 5  
Bob.....2 5  
May Queen.....2 5  
Stimmonette.....2 5  
Di Vernon.....2 5  
Time—2:21, 2:21 1/2.

Next came the Blue Ribbon Futurity. In this there were six starters. This was an exciting and interesting contest. The betting was on Spinaway and Nellie A., with the former as the favorite, and many a sport dropped his head on the horse that couldn't lose. The time made was good for a two-year-old. Summary:

Nellie A.....1 1  
Lydia Wilkes.....4 5  
Edison.....4 4  
Col. Strader.....dis.  
Spinaway.....dis.  
Zelma.....dis.  
Time—2:25 1/2, 2:21 1/2.

The last race was the 2:20 pace, and there was more fine sport in it than there was in all the other attractions of the day combined. There were seven starters. Goldust and Candland Wilkes were the favorites with the crowd. The second heat was a dead one, the Judges being unable to agree as which came under the wire in the lead, Peter Piper or Candland Wilkes, which accounts for the two eighths that appear in the summary, which follows:

Goldust.....2 3 1 3 2  
Lydia Wilkes.....4 5 5 with  
Judge Swing.....distanced  
Peter Piper.....3 0 3 1 3  
Candland Wilkes.....1 0 4 2 1

Battler.....5 4 3 with  
Time—2:15 1/2, 2:14 1/2, 2:19, 2:14 1/2, 2:16 1/2.

Robert Bissett, Stanley Nolin and Porter Skinner participated in the bicycle contest of 1893 riders. Bissett won easily.

A foot race of a hundred yards was run by a Mr. Smith of near Aberdeen and William Kopp of Ripley, the latter winning.

To-day will occur the 2:19 trot, purse \$500; the Central Hotel Stakes of \$1,000 to foals of 1890, and the free-for-all pace for a purse of \$500. The latter will include Strong Boy, J. H. L. and others with good records and promises some very fine sport.

Two bicycle races will also take place in the afternoon.

**NOTES.**

NASHVILLE, TENN., March 6th, 1893.—The Stockton Medicine Co., Nashville, Tenn., Gentlemen: I have had muscular rheumatism and indigestion for a number of years, and had lost hopes of ever finding relief, as the most skilled physicians had failed in my case, but I am happy to state your Antiseptic has made a complete cure and I most heartily recommend it to all for rheumatism and indigestion. I will gladly answer all inquiries in regard to Antiseptic. Yours respectfully, W. E. LATIMER, 311 Broad street.

**Strange Affliction.**  
For some time Irma C., the ten-year-old daughter of Mr. and Mrs. John C. Lovel, has been complaining of a pain in her hip, so violent at times that it caused difficulty in walking.

Her parents, exhausting every other means of accounting for it, finally concluded that it must be a sprain, probably the result of jumping.

This morning, however, Dr. J. H. Samuel solved the mystery by making an incision in the hip and removing therefrom a piece of gold wire about two inches in length.

How or when it got there will never be known, but its removal gave immediate relief and the little patient is correspondingly happy.

**Have You Got Asthma?**  
If so Stockton's Antiseptic will surely cure it. There is no use trying local treatment. You have got to get the Microbes out of the system, and to do that you must take Stockton's Antiseptic. For sale by Power & Reynolds, Druggists.

**HERE'S A "CHANGE."**  
A Pair of Pictures Which Repeat the True Situation.

The situation at Fall River, Mass., is fully set forth at the respective periods by the subjoined dispatches:

**Cleveland.**  
FALL RIVER, MASS., July 18th, 1892.—The cotton mill managers have just held their summer meeting and have voluntarily increased the wages of all hands 34 per cent, and a decent lot of the hours of labor one hour per week as well. This is equivalent to an increase in wages of 7 per cent. At the time the McKinley bill was before Congress not a cotton factory in the land was doing a prosperous business. Now they are all prosperous, as the volunteer increase in wages of 25,000 mill hands shows.

To-day new mills are going up here. The stock of cotton print cloth on hand, owing to the great demand for it, is smaller than it has been for years, and the price of the fabric here to-day is 34 cents per yard—48 cent less than it was before the McKinley Law was passed.

Today every one paid off received pay at the rate of \$19.60 per piece for weaving print cloth. Not a workman here can remember ever receiving the same rate of wages since he began to work as a weaver in the great Fall River Mill.

The Manager of the big King Philip Mill says, "Our business has never been so prosperous as it is now under the McKinley Tariff. We voluntarily advanced wages. That is all there is about it."

**Take Good Care of the Children.**  
POINTSTOWN, BURLINGTON COUNTY, N. J., July 17, 1893.—Our baby, now fourteen months old, was taken with every symptom of cholera infantum. I commenced using Chamberlain's Colic, Cholera and Diarrhoea Remedy, and after the first few doses he was relieved, and at this writing is as well as ever. I feel that I cannot speak too highly in its praise.

**WEEKLY CROP BULLETIN.**  
Condition of Small Crops Throughout Kentucky to Date.

The general weather conditions of the past week were rather unfavorable to agricultural interests; and there seems to be as much complaint as during the first week of this month, with apparently equally as much cause. The drought at many points has become about as severe as before, while the damaging results from it are probably more apparent.

There are some places, however, which give encouraging reports; especially those where the rains of the 11th and 12th insts. were most abundant.

The temperature during the first half of the week was excessive; during the latter half, deficient. Sunshine was excessive. The cool nights during the latter part of the week, the sunshine and dry northerly winds have been very conducive to the rapid drying of the soil and the parching up of the vegetation.

There was very little rainfall during the week. A few light local showers fell on the 16th, 17th and 18th, which were of considerable benefit to the crops, especially late corn, tobacco and gardens.

It is very evident that there will be a considerable shortage in the corn crop in this state, the percentage of shortage varying much in different sections. Estimates from sections where the drought has been most severe place the shortage at 50 per cent, and even greater, but it is not likely that many sections have suffered to this extent.

The conditions of the tobacco crop are very nearly the same as those of the corn crop. The cool nights and sunny days have been conducive to the rapid ripening of this crop, and cutting has already begun in many sections. Much tobacco has ripened prematurely.

Pastures in some sections are very nearly dried up. In others much benefit was derived from the rains of last week, but more rain is generally needed. Branches and streams are again drying up and consequently stock is beginning to lack for water.

Complaint is made that grasshoppers are injuring the hemp.

Sweet potatoes are fairly good. Late Irish potatoes poor.

Peaches and grapes are reported to be rotting badly.

A good rain will be of great benefit to the late crops, but the early crops are too nearly matured to take a reviving growth from the effects of a rain.

Warmer and fair weather is in prospect for the next day or two, with a prospect for some rain at least before the end of this week.
